State Treasurer Richard Mourdock Addresses National Utility Regulators' Group

Murdock highlights Indiana's nation leading role in wireless 911 technology

INDIANAPOLIS (July 30th, 2008) – State Treasurer Richard Mourdock, Chairman of Indiana Wireless Enhanced 911 Advisory Board, recently participated in a panel discussion about Indiana's best-in-the nation Wireless Enhanced Emergency 911 (E911) network during the recent National Association of Regulatory Utility Commissioners' (NARUC) summer meeting in Portland, Oregon. The panel was chaired by Indiana Regulatory Commissioner Larry Landis.

"The world is changing so quickly in telecom that the only thing we can be sure of is that (federal) regulators can't keep up," said Mr. Mourdock. "We are not waiting for a group of federal bureaucrats to come with a "one-size-fits-all" standard for E911. We (Indiana) can do better on our own."

An account of Treasurer Mourdock's participation in NARUC's summer meeting was reported in *Telecommunications Reports' (TR's) State Newswire* dated 07-24-08 and is posted at <http://www.in.gov/tos/2283.htm>.
